< Prev | Next >

Eighteen-year-old Rieka Spring has been determined all her life to piece together Gardian's fragmented historical record and reverse the oppressive Scorpio Code. Violating the Code's "holy orders" is punishable by death, and Rieka's broken the first tenet: never show emotion. Unless she wants to be murdered for displaying her anger against the law's will, she must find and prove that a mythological weapon is more than a story before she's killed by the hauntingly familiar assassin sent to stop her.

Filled with magical mysteries, found family, forbidden powers, and strong, rebellious women, The Age of Scorpius is a unique blend of the sword & sorcery, dystopian, science fantasy, and romance genres. This book is narrated by a neurodivergent sapphic protagonist, and features a diverse cast of characters. It is intended for audiences 15+ with its placement in the upper young adult genre.

1ST EDITION - BUYER BEWARE! —

This is the text that was originally published in June 2025. It received many poor reviews. Upon reflection, we agree that the final product isn't what it needed to be - thus, our commitment to revising the novel with a new editor for our 2nd Edition.

But, we regularly get inquiries for people who want to own the 1st edition hardcover regardless. And there's only a couple hundred left - so if you want one of these, here's your chance! Each final sale copy comes signed by the author.
